Hi Lorena,

This is Nate from CD-15 checking in- hope you have an enjoyable holiday! I believe the last time we spoke was during the councilman's trolley tour of downtown and the Harbor area for a group of developers.

I'm getting in touch because I've been talking with Metro and a consultant who is working on several [Slow Zone projects](#) in the South Bay. They are interested in San Pedro as a site for pilot project, and were hoping to meet with you (the director of the BID) about potential infrastructure improvements in downtown San Pedro. Is this something you would be interested in?

We can do a meeting at our office, your office, or a coffee. I think the consultant wants to get a better feel for the area and its future.

Best,

Nate
